25X1C		with red-bordered black epaulets. About 40 soldiers were seen. There was no change on the movable target installation on the western perimeter of the camp.	25X1C
	5.	On 23 October, 24 trucks and 3 jeeps, but no weapons and field kitchens, were parked in the area of the former Landesheilanstalt in Mauer Cehling (0 49/W 26). Only little activity was observed, but numerous imprints, also of tracks, were seen on the roads outside the installation, except	
		in front of the reilroad station. On 28 October, about 52 trucks, 6 jeeps, 2 SU-76., and field kitchens were parked in the area of the former Landes-heilanstelt. Maintenance work and overheuling was started on the still dusty vehicles. Austrian newspapers reported that track-laying vehicles did damage to fields in the Waldhofen of the Yebs River (0 48/W 25) area during the last third of October. Light machine gun firing was heard from	
		the firing range. A group of 16 soldiers with red-bordered black epaulets carrying rifles and two light machine guns subsequently returned from the firing range to the former Landesheilanstalt. A dummy T-34 tank was standing on the drill ground northeast of the installation.	25X1C
25X1C			
25X1A	1.	Comment. The 106th Gds Hv Tank SI Tegt from Vienna-Kagran was stationed at the Doellersheim troop training grounds during the summer of 1953. Return movements of units from the troop training grounds about on and after mid-October 1953 were also observed at other posts.	
25X1A	2.	Comment. The reports from Goepfritz and Allentsteig confirm that between 26 end 29 October 1953, the troops probably had vecated the summer camp at the Doellersheim troop training grounds. The assumption by source that some troops returned to their home station by road is substantiated	
·		by the report of 14 October 1953 by the same source indicating the arrival of a motorized column at St. Poelten.	25X1C 25X1A 25X1C
25X1A	3.	Comment. The information from St.Pcelten and Camp Spratzern indicates no essential change affecting the previous estimate of the occupation.	25X1C
25X1A 25X1	4.	Comment. About between 23 and 27 October 1953, field exercises probably were conducted in the area of Weidhofen on the Ybbs River (south of Mauer Oehling) with the 290th Gds Mtz Rifle Fegt from Mauer Oehling participating in the maneuvers.	25X1
